Your Resume:

JOSEPH TADDEO

Computer Science Undergrad, Senior

jjtjoseph1@gmail.com | 516-669-9372 | Albany, NY, 12208

SUMMARY

A diversely experienced computer science major with extensive experience learning new subject matters and utilizing my cumulative knowledge to create novel ideas. Seeking a role where I can collaborate in an

innovative, creative, and focused environment.

EDUCATION

Concise Suggestions \subset

Clarity

• Suggestion: To enhance readability, streamline the "Skills" section by using bullet points for clarity and conciseness. For example:

Skills

- **Programming Languages:** C, Java, SQL
- Environments: IntelliJ, VSCode, MATLAB
- Soft Skills:
 - Adaptable in diverse environments
 - Conflict resolution in team settings
 - Detail-oriented in performance and design
 - Effective communicator of complex ideas
- Analytical and data-driven

This format improves visual clarity and allows for quicker scanning of key qualifications.

Tip: If you feel this aspect of your resume needs more improvement, consider exploring advanced enhancements for detailed suggestions.

Impact

• Suggestion: In the "Piping Rock Club" section, replace "Managed cleanliness and conditions for a dozen tennis courts." This change uses a stronger verb ("ensured") and specifies the number of courts, enhancing clarity and impact.

Tip: If you feel this aspect of your resume needs more improvement, consider exploring advanced enhancements for detailed suggestions.

Visual Scan

• Suggestion: To enhance visual clarity, use consistent formatting for section headings and bullet points. For example, bold all section titles (e.g., "SUMMARY," "EDUCATION," "WORK EXPERIENCE," "SKILLS," "EXTRACURRICULAR EXPERIENCE") and ensure uniform bullet points throughout. Additionally, consider using a larger font size for your name and section headings to create a clear hierarchy. This will help recruiters quickly identify key sections and improve overall readability.
